

Lockdown

A lockdown of the electronic door system **is not** tied to a Raptor lockdown.

What to Expect

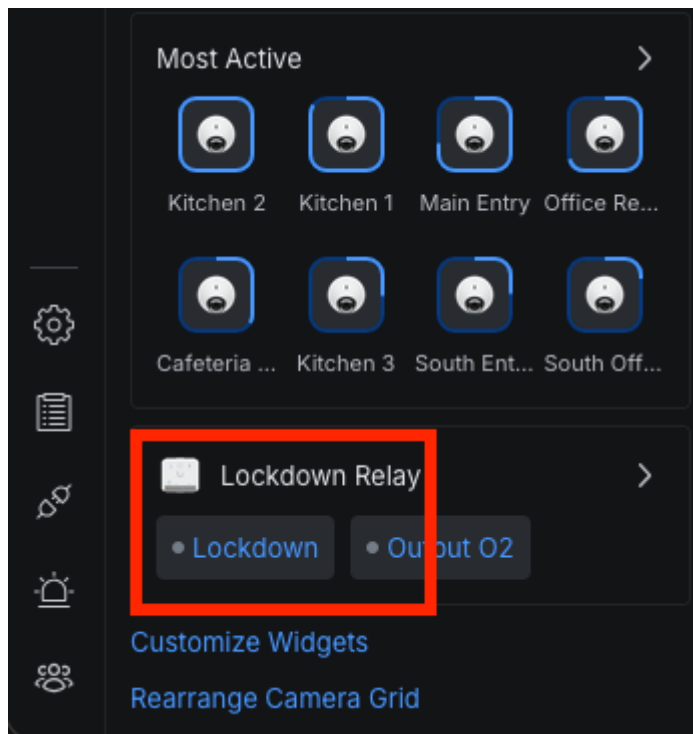

When a site enters lockdown, electronic doors will no longer unlock. Any card readers with a screen will also blink red and display a lockdown message. Campus camera administrators will also receive an email alert that the lockdown button has been pressed.

When a site exist lockdown, all systems will return to normal behavior.

Initiate a Lockdown

A lockdown can be initiated in three ways

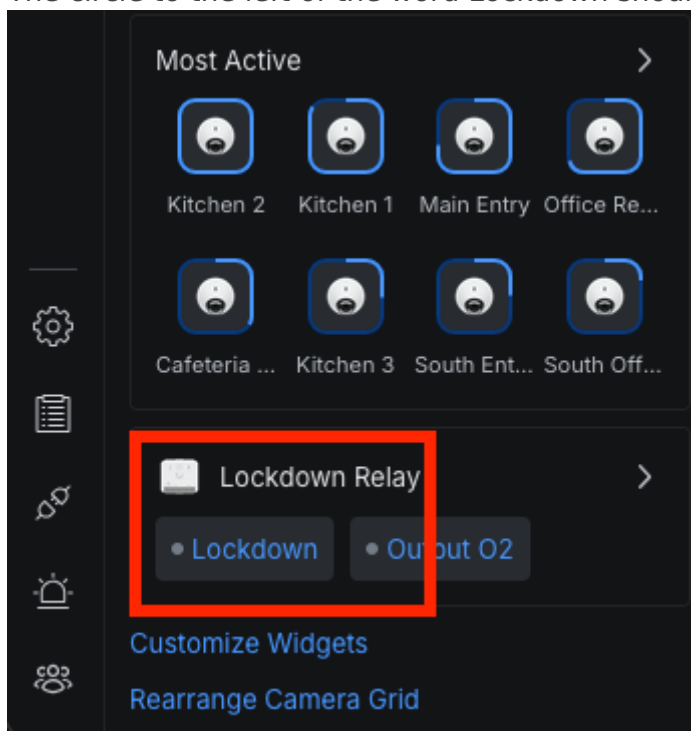

- Press the lockdown button in the reception area
- Press the lock button on a Unifi key fob
- Activate the lockdown relay in the web UI
 1. Log in to <https://pisd.ui.com>
 2. Click on the console labeled **[campus] Security**
 3. Click the Lockdown button on the left side of the page
 4. The circle to the left of the word Lockdown should turn green

Clear Lockdown

To clear a lockdown

1. Log in to <https://pisd.ui.com>
2. Click on the console labeled **[campus] Security**
3. Click the Lockdown button on the left side of the page
4. The circle to the left of the word Lockdown should turn gray
